

EDILSPRAY

TAIVER EDILSPRAY is a pneumatic feed pump ideal for spraying in the building industry, plastical coating and heavy bodied coating material areas. TAIVER EDILSPRAY is manufactured with a patented original design, so you will not experience wear of the valves and the troubles caused by piston or screw systems.

Performances:

- Continuous priming from stainless steel hopper
- Nozzle air consumption 300 ltr./min.
- Application speed up to 150 sq.m/h.
- Ratio 4:1
- Patented TAIVER system using no suction valve
- Max. pressure 28 bar
- Weight 50 Kg.

Technical Data:

- Motor: Pneumatic
- Ratio: 4:1
- Weight: 50 Kg
- Max. Delivery: 50 lt/min
