

Performances:

- Light and easy to move
- Hopper capacity: 55 lt
- Hopper in stainless steel
- Automatic system for reusing lung
- Built in accordance with latest European Union rules
- Flat and round spray tips
- Speed electronic control unit

News:

New remote control ON/OFF for starting and stopping the equipment at distance.

Technical Data:

	<i>MTV 80</i>	<i>MTV 200</i>
- Motor:	singlephase motor	
- Power:	HP 0,75	HP 2
- Weight:	57 Kg	67 Kg
- Max. Delivery:	5 lt/min	12 lt/min

MTV is a screw pump with a singlephase electric motor and direct pulley belt transmission with reducer. Speed is adjusted electronically. MTV is available in two version (MTV 80 and MTV 200).

In the industrial building field MTV is a pump with innovatory characteristics which allow to spray prepared cements and whitenings, plastic coatings up to 3 mm. grain size. MTV is the ideal pump for spraying coatings on buildings, walls, etc...with very low costs but with high working speed without effort!
