

The airless system allows a high working speed and reduces the overspray, therefore paint and solvent saving. Less overspray means also less pollution and benefits for the worker's health!

This airless electric diaphragm pump offers to the operator the best spray performance!

GOLD 11000 can work with spray tips up to .052". Thanks to its performance it is possible to spray high thickness products without losing pressure! GOLD 11000 is the ideal pump for contractors for very important jobs: spraying buildings, silos, containers, etc...

## Construction specifications:

The electric motor GOLD 11000 is H class, that means: maximum quality and safety. It can work in very bad conditions and with very high temperature. An automatic system stops the pump when exceeding the electric safety limits. The head block is in stainless steel, the valves in tungsten carbide. GOLD 11000 has been designed for an easy maintenance.

## Technical Data:

- Motor:	Electric, singlephase
- Volt:	230 Volt/50 Hz
- Power:	3 HP
- Weight:	65 kg
- Max. Pressure:	220 bar
- Max. Spray tip:	.052"
- Max. Delivery:	9,5 lt/min
- Max. Delivery with tip .052":	7 lt/min a 105 bar
