

7000 PLUS

Serie **P**
Pneumatic airless piston pump

7000 PLUS

7000 PLUS is an airless pneumatic pump of the new Taiver generation, which includes two patents. 7000 PLUS is ideal in the wood and metal industry and in the carpentry, where a high productivity and the possibility of spraying also water-based paints are required.

Construction specifications:

7000 PLUS uses an avant-garde technology: The instant volumetric reversal of pneumatic motor, that means a very low pressure drop during the reversal, and the simultaneous adjustment of packings. This simultaneous adjustment, depending on the wear, allows a longer life and a better performance of the unit. The piston is hard chrome treated and all the parts in contact with the products are in stainless steel. Very easy maintenance. Tungsten carbide valves.

Performances:

7000 PLUS with a ratio 30:1 and a delivery of 64 cm³ per cycle. The air motor, instant volumetric reversal allows a constant atomizing pressure and a high quality finishing. Light and handy to use, 7000 PLUS has no ice problems and the air motor can work in every place without lubrication.

Target Coatings:

Lacquer / varnish / enamel (low visc)	■
Primer / latex / enamel (med. visc)	■
2 component (med. visc.)	■
Low solvent & solvent free coatings (high visc)	■
Insulation and high build coatings	■
Fire-proofing coatings	■
Water-proofing coatings / bituminous coatings	■
Plasters / ready-mix gyps	■
Powder glass coatings	■

Available Set-up:

- Airless
- Air-mix
-
- On Stand
- Trolley
- Wall Bracket

Technical Data:

Pneumatic motor instant volumetric reversal	yes
Ratio	30:1
Max. Free Flow Delivery	ltr/min
	7,0
	1 Gun
	0,026
Max. Spray Tip	2 Guns
	0,018
	3 Guns

Max. Working Pressure (bar)	210
Weight	kg.
	20
Air consumption	ltr/min
	250 - 750
Max. suggested Viscosity (Centipoise)	600
Packing type:	Fix
