

BOXER 5

Serie **BOXER**
Double diaphragm pump

BOXER 5

BOXER 5 is a two-diaphragm pump, built to obtain high quality finishing!

It's very easy and handy. The two-diaphragm system allows to feed the spray gun without pulsation and keeps a constant atomization, that means the fan is not subject to fluctuations and intermittences.

Construction specifications:

BOXER 5 is a pneumatic double diaphragm pump, built to feed every type of air gun: volumetric, automatic, HVLP, etc..... The direct suction from container assures a constant feed to the gun. All parts in contact with the product are built with a special anti-acid and fireproofing material. No lubrication. Easy and fast maintenance.

Performances:

- Light and handy
- Easy maintenance
- Time saving when changing colour
- Recommended gun: TAIVER T89
- Pneumatic mixer on request
- Parts in contact with product anti-acid and fireproofing treated

Technical Data:

Motor		Pneumatic
Ratio		1:1
Max. Free Flow Delivery	ltr/min	5
Max. Working Pressure (bar)		8
Weight	kg.	18
Air consumption	ltr/min	300-500
Max. suggested Viscosity (Centipoise)		160
