

GOLD 11000

Serie **GOLD**
Electric airless diaphragm pump

GOLD 11000

This airless electric diaphragm pump offers to the operator the best spray performance!

Thanks to its performance it is possible to spray high thickness products without losing pressure!

GOLD 11000 is the ideal pump for contractors for very important jobs: spraying buildings, silos, containers, etc...

Target Coatings:

Lacquer / varnish / enamel (low visc)	■
Primer / latex / enamel (med. visc)	■
2 component (med. visc.)	■
Low solvent & solvent free coatings (high visc)	■
Insulation and high build coatings	■
Fire-proofing coatings	■
Water-proofing coatings / bituminous coatings	■
Plasters / ready-mix gyphs	■
Resins / Injection's coatings	■

Technical Data:

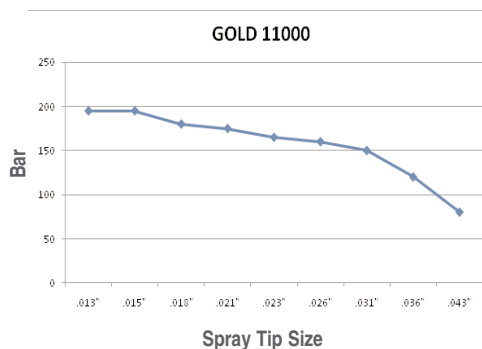

Volt	230 Volt	380 Volt
	50 Hz	50 Hz
Power	3 HP	3 HP
Ratio	---	---
Max. Free Flow Delivery	ltr/min 9,5	9,5
Max. Delivery with tip	ltr/min 7	7
	1 Gun 0,043	0,043
Max. Spray Tip	2 Guns 0,021	0,021
	3 Guns ---	---
Max. Working Pressure (bar)	220	220
Max. length HP hose mt.	100	100
Max. length HP hose (elevation) mt.	100	100
Weight	kg. 65	65
Max. suggested Viscosity (Centipoise)	600	600

Construction specifications:

The electric motor GOLD 11000 is H class, that means: maximum quality and safety. It can work in very bad conditions and with very high temperature. An automatic system stops the pump when exceeding the electric safety limits. The head block is in stainless steel, the valves in tungsten carbide. GOLD 11000 has been designed for an easy maintenance.

The airless system allows a high working speed and reduces the overspray, therefore paint and solvent saving. Less overspray means also less pollution and benefits for the worker's health!
