

MTV is a screw pump with a singlephase electric motor and direct pulley belt transmission with reducer. Speed is adjusted electronically. MTV is available in two version (MTV 80 and MTV 200).

In the industrial building field MTV is a pump with innovatory characteristics which allow to spray prepared cements and whitenings, plastic coatings up to 3 mm. grain size.

MTV is the ideal pump for spraying coatings on buildings, walls, etc...with very low costs but with high working speed without effort!

Performances:

- Light and easy to move
- Hopper capacity: 55 lt
- Hopper in stainless steel
- Automatic system for reusing lung
- Built in accordance with latest European Union rules
- Flat and round spray tips
- Speed electronic control unit

New!

New remote control ON/OFF for starting and stopping the equipment at distance.

Technical Data:

	MTV 80	MTV 200
Volt	230 Volt	230 Volt
	50 Hz	50 Hz
Power	0,75 HP	2 HP
Mixing Ratio:	---	---
Max. Delivery ltr/min	5	12
Max. Working Pressure (bar)	8	14
Weight kg.	57	57
Air consumption ltr/min	300-600	300-800

Lancia Bear:

LANCE BEAR with ON-OFF switch has been projected to work with heavy duty materials; i.e. gypsum, plasters, cement and heavy duty coatings with max. granulometry 3 mm.

LANCE BEAR offers high performance and it is ideal for professional! Thanks to the switch placed directly on the lance, it is possible to stop the pump when necessary. Lance is supplied with a Nozzle Set in stainless steel (conical and flat).
