WIT BLACK "L"

This airless electric diaphragm pump offers to the operator the best spraying performance!

Thanks to its powerfulness, it is possible to spray high thickness products without losing pressure!

WIT BLACK "L" is the ideal pump for contractors for very important jobs: spraying buildings, silos, containers, etc...

Target Coatings:

Lacquer / varnish / enamel (low visc)	■
Primer / latex / enamel (med. visc)	■
2 component (med. visc.)	■
Low solvent & solvent free coatings (high visc)	■
Insulation and high viscosity building coatings	■
Fire-proofing coatings	■
Water-proofing coatings / bituminous coatings	■
Plasters / ready-mix gypsum	■
Resins / Injection's coatings	■

Technical Data:

Volt	230 Volt	
	50 Hz	
Power	3 HP	
Max. Free Flow Delivery	ltr/min	9,5
Max. Delivery with tip	ltr/min	7
	1 Gun	0,043
Max. Spray Tip	2 Guns	0,021
Max. Working Pressure (bar)	220	
Max. length HP hose mt.	100	
Max. length HP hose (elevation) mt.	100	
Weight	kg.	59
Max. suggested Viscosity (Centipoise)	600	

Construction specifications:

The electric motor of WIT BLACK "L" is H class, that means: maximum quality and safety. It can work in very bad conditions and with very high temperature. An automatic system stops the pump when exceeding the electric safety limits. The head block is made of aluminium alloy (STAINLESS STEEL ON REQUEST), valves are in tungsten carbide. WIT BLACK "L" has been designed for an easy maintenance.

The airless system allows a high working speed and reduces the overspray, therefore paint and solvent saving. Less overspray means also less pollution and benefits for the worker's health!
